

”Those lazy, dropouts.”

Those who lay at their dirty couches
day after day and play video games.
Those who don't go to work or are
too tired to get a job altogether.
Those new 12 who end up going
to disability pension everyday,
because of depression.
Those who haven't seen too much
sunshine and rainbows.
Those who suffer from social exclusion.
And those who already
struggle to ask for help.
Those we are helping.
